

**JUST THINKING VII  
PASTOR STAN**

**To Bethel Wesley Members and Friends:**

**I sincerely hope and pray that all of you and your families and friends both near and far are doing well and in good health, physically, spiritually and mentally.**

**As your Pastor, I understand that we may have moments where we may we feel lonely at times and our hopes are dashed. Let me encourage you today to keep looking up and remember that God is a present help in the times of trouble, Psalm 46: 1. I believe that there's a remedy for our loneliness and it begins with the acceptance of the facts that we are never alone and God desires that each of us be happy no matter what is going on around us because WE are His children.**

**I also believe that sometimes in the midst of our suffering, the acceptance of this fact may be easier said than done. I would suggest that we let God work within us. The way to get started is by obeying and embracing God's ordinances and statutes. By living according to the way revealed through Jesus Christ, we are able to open up the door that frees us of loneliness and doubt.**

**Let's call and check on one another, encourage one another and definitely PRAY for one another daily without ceasing.**

**I really love you!**

**STAY PRAYERFUL, HEALTHY AND SAFE**
